

The State of the Department Address

Prof. Chris Kolda
Chair

Wednesday, August 28 ♦ 4 P.M.

Room 118 Nieuwland Science Hall

Refreshments @ 5:00 in 202 NSH

In this year's first colloquium, Prof. Kolda will begin a new tradition of addressing our faculty, staff and students on the successes, opportunities and challenges that have marked the past year and are facing us in the coming year. This will be a good opportunity to welcome new faces, review some of our recent honors and accomplishments, hear about departmental goals and initiatives, and preview the new university strategic plan.

All Physics department faculty, research staff, administrative staff, graduate students, and undergraduate majors are invited to attend. Our traditional refreshments will be served following the colloquium, rather than beforehand.
