

Intel Tech Talk

Logic Technology Development

Join **Stephan Klopcic** for a discussion on Intel's Silicon process technology with an emphasis on scaling electronic devices. Dr. Klopcic has been a member of Intel Corporation's Portland Technology Group (PTD) for over 15 years on the team responsible for the development of advanced Lithography processes. Dr. Klopcic is currently a group leader directing efforts in several areas - from photoresist processing to sub-resolution Line/Space solutions.

Date: Sunday, November 16th
Time: 11:45 am
Location: Nieuwland Science Hall, rm 184

We hire PhD graduates for TD in Chem E, Mech E, Mat Sci, EE, CS, CE, Chemistry, and many other Engineering and Science related disciplines.

Food Provided!

Bring Resume

A photograph of a man and a woman in a professional setting. The man, on the left, is wearing a blue and white checkered shirt and a red and blue striped tie. He is smiling and looking towards the woman. The woman, on the right, has blonde hair and is wearing glasses and a dark blue blazer. They are both looking at a tablet computer that the man is holding. In the background, there is a whiteboard with some faint, illegible text.

**We believe in
ongoing education.
Yours.**
