

Graduate Physics Students Fall Conference

WEDNESDAY

DECEMBER 9

4:00 P.M.

RM 118 NSH

Multiple physics graduate students will present research talks.

Chris Seymour - Commissioning of the St. George Recoil Separator

Gary Uppal - A Spatial Model for Bacteria Interaction and Evolution

Michael Skulski - Further Exploration of the $^{33}\text{S}(\alpha,p)^{36}\text{Cl}$ Reaction Cross Section

Rodolfo Capdevilla - A Search for Light Stops in a Gauge Extension of the Minimal Supersymmetric Standard Model

Vu Nguyen - Inversion of Diffusion on Networks

Tyler Anderson - Measurement Campaign for Astrophysically Relevant ^{36}Cl Production Cross Sections

Everyone is invited to attend.
