

The NRC's response to nuclear events in Japan

**Commissioner William C. Ostendorff
U.S. Nuclear Regulatory Commission**

The Commissioner will provide an overview of events that occurred at the Fukushima Daiichi Nuclear Power Plant on March 11, 2011 and the NRC's actions in response to the event. He will provide a short summary of the sequence of events during the accident, initial lessons learned from the event, and his perspectives on key regulatory considerations in implementing lessons learned from the event.

Friday, February 24

10:00 A.M.

Room 202 Nieuwland Science Hall
