

THE 2011 NOBEL PRIZE: A PERSONAL VIEW

Prof. Peter Garnavich
University of Notre Dame

Wednesday, February 8, 2012 ❖ 4:00 P.M. ❖ NSH 118
(Refreshments at 3:30 P.M. NSH 202)

The discovery of the accelerating universe was awarded the 2011 Nobel Prize in Physics. I was a member of the “High-z Supernova Search Team”, one of the two collaborations that shared in the discovery. In this informal presentation I will show pictures from Nobel week in Stockholm and describe the science behind the discovery.

Colloquium

All interested persons are cordially invited to attend.
